SOUTH-EAST SKILLS MOBILITY PARTNERSHIP HUB

A Dual-Track Skills, Language and Certification Partnership with Destination Countries

Institutional Anchor: Ogbonnaya Onu Polytechnic, Aba, Abia State

1. Summary

CSONetMADE Abia, in collaboration with NCFRMI and the Abia State Government, proposes a South-East Skills Mobility Partnership Hub anchored at Ogbonnaya Onu Polytechnic, Aba, under an existing Memorandum of Understanding. The Hub will deliver technical and vocational training, destination-country language instruction (German, French and others), and internationally recognised certification, operating on a dual-track model: graduates either enter domestic and ECOWAS employment or proceed through structured, ethical mobility pathways into partner-country labour markets. This is the practical, sub-national operationalisation of Skills Mobility Partnership (SMP) principles, a triple-win for the migrant, the destination economy and the community of origin.

2. Policy Alignment

- Revised National Migration Policy (NMP) 2025 - regular pathways and sub-national implementation;
- Southeast Migration Dialogue (SEMD) 2026 Communiqué - Priorities 4 (regular pathways) and 6 (private sector engagement);
- Global Compact for Migration - Objectives 5, 6 and 18 (skills recognition and ethical recruitment);
- Partner-country labour-migration and development-cooperation priorities.

3. Key Components

- Dual-track TVET delivery in high-mobility occupations: ICT, healthcare support, construction trades, hospitality, renewable energy and agro-processing;
- Certified language training (Goethe/DELF track) with cultural and pre-departure orientation;
- Ethical recruitment interface with licensed recruiters and destination-country employers, applying fair-recruitment standards;
- A placement and alumni-tracking system feeding evidence to the emerging Abia State Migration Agency.

4. What We Bring

A signed institutional MOU with a state-owned polytechnic in Aba, the South-East's industrial hub; strong political ownership under the Abia State Government; the convening platform of Southeast Migration Dialogue 2026; and a grassroots CSO network for beneficiary mobilisation and follow-up.

5. What We Seek

Funding and technical partnership for training delivery, instructor development, international certification costs, language laboratory equipment, and a structured employer-matching component in the partner country. We welcome co-design and are prepared to convene a scoping mission to Aba at your convenience.

Dr Charles Ukauwa,

Abia State Coordinator, CSONetMADE

Convener, Southeast Migration Dialogue (SEMD 2026).
